

iSpeed CAN Bus

user manual

USER MANUAL (ALL INSTALL VERSIONS)

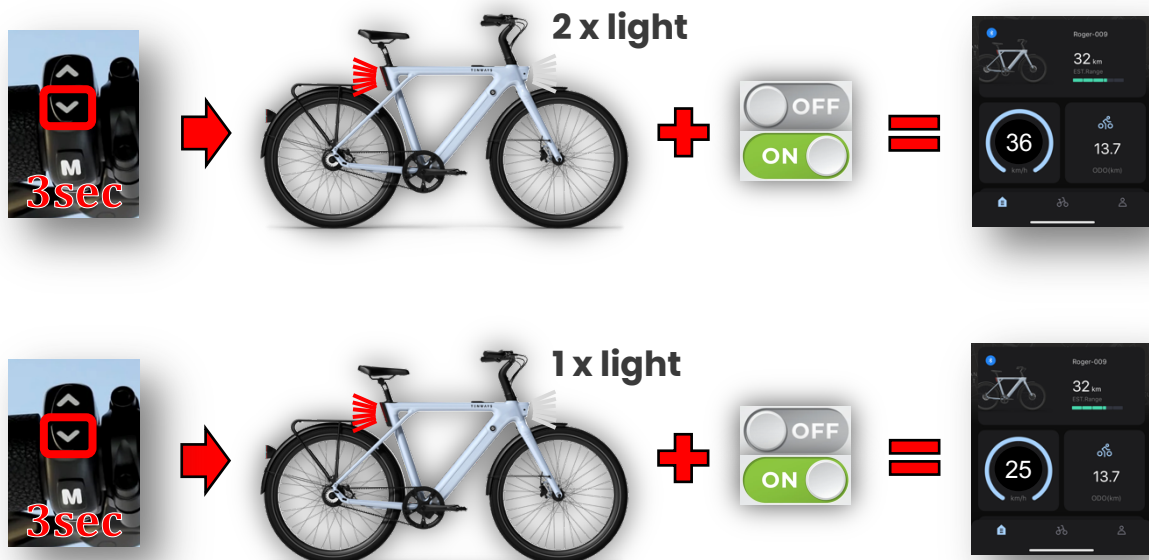

Legal note

The iSpeed blackbox is not to be used in normal road traffic or in areas regulated by the Road Traffic Act! Use is only permitted on private property. The use of the iSpeed blackbox is entirely at your own risk and responsibility. The manufacturer accepts no liability for loss of warranty, damage to property and/or persons arising from the use of the product.

iSpeed added functionality

1. Push the “down” button (“light” button on some AGO-T) for 3 seconds to activate “unlimited” mode. The lights will flash **two times** to confirm.
2. Push the “down” button (“light” button on some AGO-T) for 3 seconds to activate “25 km/h” mode. The lights will flash **once** to confirm.
3. After switching mode you need to **turn the bike off and then on again** before the new setting becomes active!

Version 1.2 March 31, 2025

Important note: After programming “unlimited” mode, iSpeed is linked to your bike. In case you want to remove iSpeed always make sure to switch to “25 km/h” mode first to un-link iSpeed again.
